

My HRdept

United Kingdom

myHRdept is a standalone 'HR department' with 16 years' experience of supporting SME businesses most of whom do not have their own internal HR team. We also support the internal HR teams of larger companies and are trusted by prestigious law firms and accountancy practices to provide HR support to their clients. Our Company provides the full range of HR services one would expect from an in-house HR team. These include employment law advice, employment contracts, HR policies, case management of HR processes (parental laws, disciplinary, grievance, discrimination, working time, absence, performance etc.), administrative services, recruitment services (charged separately), document management, absence and holiday software etc. We are a privately owned Company located to the West of London but with clients throughout the UK. We have built an excellent reputation for customer service, pragmatism and commercially focussed HR. We also support the UK arms of businesses based in Spain, France, New Zealand, South Africa, Pakistan, Jersey, the USA and others.
