

Grey Blackout Curtains

United Kingdom

Darker colors have better darkening effect (blackout effect 90% to 98%). Due to differences in computer monitors, colors may be slightly different between the actual product and what you see on your screen.

Attention: the width of the curtain is the total width. For example, the 83.9 " width corresponds to the two panels together, one panel is 41.7 ". Each package includes a set of 2 curtain panels, available in 21 different size options

Noise control: Epinki blackout curtains are capable of filtering approximately 60% of outside noise to enter the room. Create a private and peaceful sleep environment.

Energy Efficiency: Helps to keep the heat in the room during the winter, and they will reflect the heat out of the room during the summer.

Cleaning Instructions: Machine wash cold, gentle cycle, do not bleach, tumble dry

low, wrinkles will disappear after hanging for a few weeks or hot ironing.
